

The Ohio Departments to Aging, Health, Developmental Disabilities, and Medicaid worked together to create a toolkit for provider organizations and staff serving Ohioans who utilize LTSS during the COVID-19 crisis. This toolkit reflects the importance of Governor DeWine's aggressive approach to protecting all of Ohio's citizens during the pandemic and aligns with his direction to prepare to care for the "surge" of individuals who will contract COVID-19 in the coming weeks. Pages 20-26 have especially useful information. Access the toolkit below.
